Dear Mr. Oakes,

Thanks for your note and the enclosures.

They make interesting souvenirs but I do not go for souvenirs in my work. No time for them!

The note is too unclear for me to make much of it out but I'm not inclined to put much stock in the things that Ruby said in part because of the kind of person he was before the advent of the brain cancer, which was well developed before it was detected, and in part because of it.

If you are still in touch with Maddox, I'm interested if he was with Walthers when Buddy got himself killed by carelessness. I was in Dallas that day, by the way.

If he can tell you more about the bullet Buddy supposedly picked up and it looks too large to be a bullet to me, including what disposition was made of it, that would be of interest to me.

And if the unidentified man in the picture of this is Barrett, that, too, would be interesting, particularly because he filed no report on it. At least not one in the Dallas JFK assassination files.

While the Oswald arrest record says he was arrested at 1:40 p.m. 11/22/63, it does not say when it was filled out. If there is any way of learning that, that also would be interesting.

If any of the people you were in touch with, particularly Brain and Maddox, had anything to say other than what is reported, it could be quite interesting. I've always wondered whether Walthers' widow has any records or recollections of what he said that she'd be willing to share.

Thanks for your good wishes. My best wishes to you,

sincerely,
